

This formula demonstrates the use of **SURTECH IV-122A** and **Surtech 20-113** (products of Surface Chemists of Florida, Inc.) as components of a Liquid Laundry Detergent with Hydrogen Peroxide.

Liquid Laundry Detergent with Hydrogen Peroxide

Soil – Food (fat and protein), petroleum oil and grease, clay and particulate

Surface – fabrics

Application Method – dispersed into water in washer machine

Manufacture – Mix tank with propeller stirrer

Composition	% by weight	Function
Hydrogen Peroxide (35%)	61.8	Bleach
SURTECH IV -122A	36.7	Wet / Solubilize / Emulsify
SURTECH 20-113	1.5	Anti gelling

pH= 6-7

Directions for use: Feed at 0.1% to 0.75% in wash cycle.
