

This formula demonstrates the use of **SURTECH 20-113** and **Surtech 181**(products of Surface Chemists of Florida, Inc.) as components of a Liquid Hot Water Extraction Carpet Cleaner.

Low Foaming Hot Water Extraction Carpet Cleaner (Liquid) with Hydrogen Peroxide

Soil – Food (fat and protein), petroleum oil and grease, clay and particulate

Surface – Polyester and nylon

Application Method – Hot Water Extraction Carpet Cleaner

Manufacture – Mix tank with propeller stirrer

Composition	% by wt	Function
Water	85.6	
SURTECH 20-113	2.0	Coupler
SURTECH 181	1.0	Wet / Solubilize / Emulsify
Aroosolv DPM*	3.0	Cleaning
Dequest 2010**	0.5	Acid/Chelating Agents
Hydrogen Peroxide (35%)	2.9	Bleach/Sanitizer
Syntran 1580***	5.0	Soil Repellant

pH= 6-7

Directions for use: Dilute 1/25 in water.
